

# Fleet-proven. Fuel-smart. Future-ready.

## Heavy-duty trucks built to work—and built to save.

Fleet operators are turning to natural gas trucks to reduce fuel costs, meet sustainability goals, and stay ahead of evolving emissions regulations. Combined with the Cummins X15N, our scalable RNG/CNG fuel systems provide the range work trucks demand while maintaining seamless daily operations.

Our heavy-duty systems deliver uncompromising power, cleaner emissions, and long-term savings without sacrificing performance.

## RNG / CNG FUEL SYSTEMS FOR HEAVY-DUTY TRUCKS

Maximum range. Diesel-like power. Smarter economics.

### Key Benefits

#### Lower total cost of ownership compared to diesel

- Save over \$2.00 per gallon
- Maximize uptime
- Lower lifecycle expenses

#### Pure performance

- 1,200+ mile range
- Diesel-like performance, quieter operation
- Up to 500 HP and 1,850 lb-ft torque

#### Proven & mature technology

- Road-proven with real-world millions of miles logged
- 1,600+ public and private fueling stations
- Trusted by leading commercial and municipal fleets

#### Domestic energy

- American-made
- Enhances energy security
- Available in abundance

#### Emissions & sustainability

- Up to 90% reduction in NOx emissions
- Carbon-negative when using Renewable Natural Gas (RNG)
- Meets or exceeds EPA and CARB low-NOx standards

#### Hexagon Agility FleetCare

- Nationwide network of certified CNG service centers
- OEM-backed warranties and mobile technical assistance
- Dedicated team of experts with 40+ years of combined experience

### ProCab® (Behind-the-Cab)

| Configuration | Capacity (DGE) | Est. range (Avg 6.5 MPG) | Full weight (inc. fuel) |
|---------------|----------------|--------------------------|-------------------------|
| ProCab 175    | 175 DGE        | ~900 Miles               | 3,200                   |
| ProCab 130    | 130 DGE        | ~650 Miles               | 2,550                   |

### ProRail® (Side Mount)

| Configuration   | Capacity (DGE) | Est. range (Avg 6.5 MPG) | Full weight (inc. fuel) |
|-----------------|----------------|--------------------------|-------------------------|
| Dual ProRail 60 | 120 DGE        | ~600 Miles               | 2,100                   |
| Dual ProRail 45 | 90 DGE         | ~450 Miles               | 1,600                   |
| Dual ProRail 30 | 60 DGE         | ~300 Miles               | 1,250                   |

For long-haul applications, combine ProCab 175 with dual ProRail 45 to achieve 1,200+ mile range.
