

Appendix

**This appendix was part of the submitted manuscript and has been peer reviewed.
It is posted as supplied by the authors.**

Appendix to: Wright EK, Ding NS, Niewiadomski O. Management of inflammatory bowel disease. *Med J Aust* 2018; 209: 318-323. doi: 10.5694/mja17.01001.

An example of a visual aid to assist in explaining to patients the risks of treatment for inflammatory bowel disease*

* This figure shows the risk of annual risk of non-Hodgkin's lymphoma associated with immune suppression. The risk is likely to be similar for immunomodulators and for immunomodulators combined with anti-tumour necrosis factor therapy. In this figure, nine people are highlighted to demonstrate the absolute risk. Source: Figure reproduced from "Siegel CA. Review article: explaining risks of inflammatory bowel disease therapy to patients. *Aliment Pharmacol Ther* 2011; 33: 23-32," with permission from Wiley Online Library, 2011.
