

# SPECIFICATION SHEET

## MOD-Cut CART

### PRODUCT DESCRIPTION

This plasma cutting cart is designed exclusively around the FANUC CRX-10iA Cobot. We utilize ease of programming with the FANUC drag-and-drop features on the tablet and move the cobot by hand into different positions. The cart comes with 16mm fixture holes on 2" centers and a downdraft table ready to accept your fume extractor. The system comes exclusively with the Hypertherm Power Supply.
