

Round Wood Piling

SUSTAINABLE WOOD PILES SOURCED, TREATED AND DELIVERED

Our durable round wood piles are treated for marine and foundation applications, and are a more affordable option than steel or concrete.

PRODUCT DETAILS

Sizes: Piles available from 20 to 120 feet. Classes A and B, and 12", 10", 8" minimum butt and 6" minimum tip.

Species: Douglas fir and Southern Yellow Pine.

Treatments: DCOI, CuNap, CCA, ACZA and untreated. Produced to meet AWPA U1 Standards, meeting UC4A-4B-4C and UC5A-5B-5C.

Tapering: Provides higher resistance in granular soils than uniform piles.

Standards: Meets or exceeds ASTM International D-25 standard specifications for round timber piles.

Sustainable

Piles made from sustainable wood fiber resources, sourced by Bell in North America.

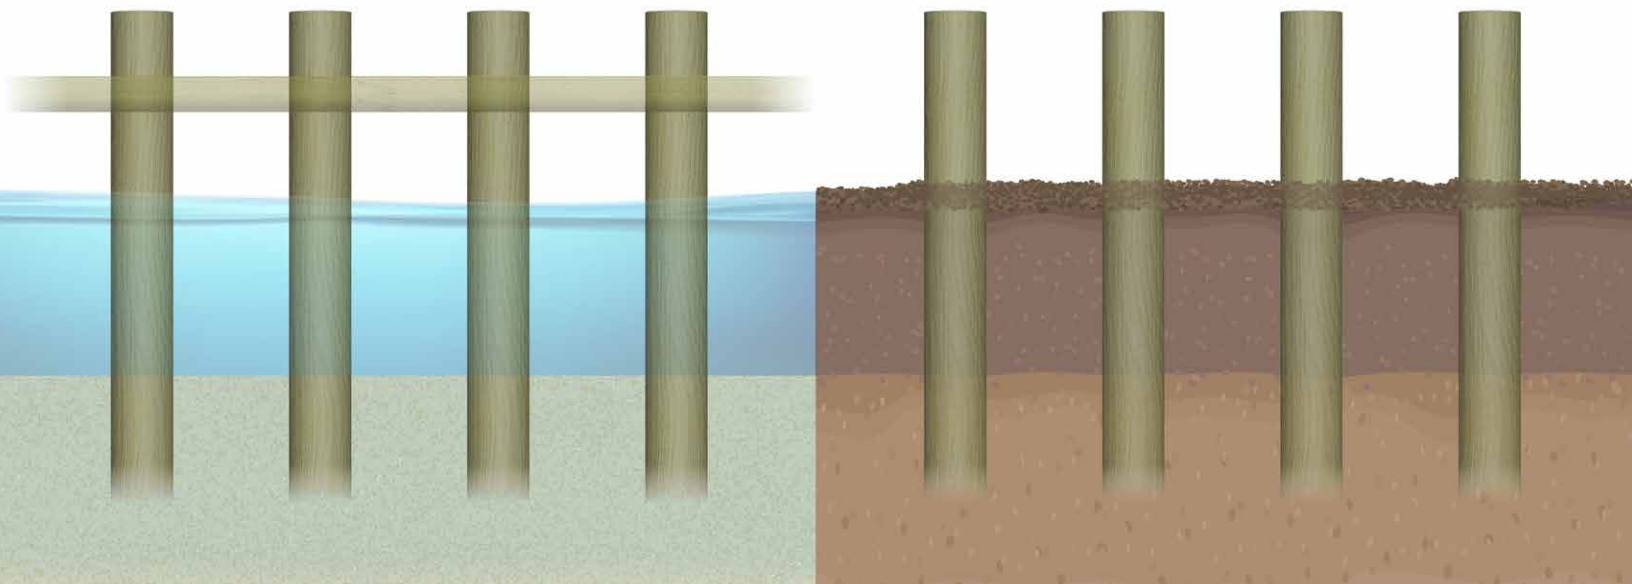

Timely Onsite Delivery

Diverse supply chain ensures inventory is available for delivery by truck or rail.

Bell Guarantee

Your satisfaction is 100% guaranteed and backed by 115 years of Bell family integrity.
