

Get the Best Deal for Your Timber

LET OUR FORESTRY EXPERTS MAXIMIZE YOUR TIMBER VALUE

Best in the Business

For more than 100 years, we've been directly buying timber fiber in the form of harvested timber and timber holdings. We also sell logs to mills if timber doesn't meet utility pole specifications.

Experienced Forestry Team

Our professional foresters will help you navigate markets, regulations, and values.

Hassle Free

We are experts in your area's policies and able to work directly with the government.

Relationship-Based

We value relationships and aim to build trust with everyone we do business with. Our word matters to us, and we are dedicated to communicating effectively and promptly.

A Reputation of Integrity

We've always been committed to taking the best possible care of our customers, the environment, and the communities in which we serve. We prioritize safety, the environment, and quality.

Own Land?

Optimize your forest through our Management Assistance Program

-  **Highest Value**
Get the highest market value for timberland and timber holdings.
-  **Improve the Quality of Your Soil**
Selective forest thinning helps balance the soil, which allows vegetation to flourish.
-  **Improve the Health of Your Forest**
When vegetation flourishes, you'll create an even better habitat for wildlife and improve your forest's health and appearance.
-  **Hassle-Free**
Per your forest plan, we oversee and negotiate all harvesting with certified loggers.
-  **Qualifications**
Must meet a minimum of 5 acres and have substantial pole potential on site.

“ Our family tree farm is focused on its third generation. We have had help managing the farm since 1966 using the MAP program. We have relied on the foresters at Bell Timber to advise and assist us. Our timber harvests have been timely and sympathetic to our aesthetic needs and the health of our tree crop. We enjoy working with our land and Bell Timber, and look forward to the future and meeting our family goals. ”
