

## SILVER CARE

Store – in a dry place. If not in view, wrap silver in silver cloth

Clean – regularly with soap and water, making sure it gets completely dry. Light tarnish can be buffed with a clean cotton cloth. Use polish that is not too abrasive and make sure to wash off any polish residue.

Products:

- Pacific Silvercloth
- Sunshine polishing cloths – for light tarnish and jewelry
- Cape Cod silver polish – for heavier tarnish

## CERAMICS CARE

Store – in a sturdy place, not stacked too high. You can interleave plates with ethafoam or tissue paper dividers if necessary.

Clean – regularly with soap and water. Pieces with gilt edges shouldn't go in the dishwasher or microwave.

## FURNITURE CARE

Store – in a temperature-controlled environment without large swings in humidity. Try to avoid direct sunlight.

Clean – dust regularly, clean dirt with diluted oil soap, wax periodically

Products:

- Murphy's Oil Soap
- Renaissance Furniture Wax

## DOCUMENTS CARE

Store – in acid-free folders and boxes, in a dark, pest-free, temperature-controlled environment without large swings in humidity. If framed, use all acid-free materials, UV-resistant glass, and out of direct sunlight.

## VINYL RECORDS CARE

Store – in a cool, dry place away from direct light. Arrange discs upright on a sturdy shelf, grouping discs of similar diameter together. Sturdy dividers every few inches can help stabilize large collections. Protective sleeves can help prevent dust, static, and scratches on albums and their original covers.

Clean – remove dust with canned air or a microfiber cloth. Using an anti-static gun before playing can reduce the crackle and pop feedback you get after placing the needle down.

Products:

- [Mylar outer sleeves](#)
- [Rice paper inner sleeves](#)
- [Anti-static gun](#)
