SNOW REMOVAL RESPONSIBILITIES

Purpose

The purpose of this policy is to establish districtwide standards for snow and ice removal operations to ensure that all Battle Creek Public Schools facilities remain safe, accessible, and operational during winter weather events. Effective snow and ice management minimizes safety hazards, prevents property damage, and ensures that instructional and work schedules proceed without unnecessary disruption.

Summary

Note that the BCPS Maintenance Crew will assume the responsibilities of the shaded blue areas as well as the yellow lined sidewalk areas. The green lined sidewalk areas will be the responsibility of the successful bidder. The ENTIRE WIDTH of the concrete sidewalk must be cleared to the indicated green line length. All building exit access and discharges shall be kept free from the accumulations of snow and ice. This includes ALL points of potential egress that may not be noted on the illustrations.

Snow melt shall be applied as necessary to avoid potential slip/ fall hazards. Snow removal equipment as well as snow melt and snow melt application equipment will be provided by BCPS. Snow melt application equipment shall be properly cleaned following each use and issues with the equipment shall be reported to the BCPS Facilities Department

Outdoor Education Center

The responsibilities of snow removal at the Outdoor Education Center include operating a snow plow truck and salt spreader to plow all drives on site in addition to the responsibilities above. The equipment to complete these tasks will be supplied by BCPS.
