

## AMS Hours

### Application Management Services

Traditional application management services (AMS) can often mean rigid contracts and junior consultants that fall short on delivering value for your money.

At Three Link Solutions, AMS is tailored to your needs. Hours can be used for ongoing Workday support such as enhancements, fixes and updates without the need for project-based engagements.

### Predictable Support, Ultimate Flexibility

Manifest your Workday roadmap on your schedule.

- Use any number of hours each month – no minimum
- Hours never expire with active engagement
- Access to our entire consultant pool of experts
- Annual or quarterly billing options
- Easily request help using AMS reservations
- Preferred rates based on number of hours selected

### Evolve Workday with Your Business

- Maintenance, security updates and break/fix
- Integrations and reporting
- Release management and testing
- Extend module functionality
- And more!

### Want Even More Proactive Support?

If purchased with Three Link's Whisperer services, AMS hours are strategically planned by the Whisperer to align with your priorities and roadmap, helping you make steady progress without needing to scope or contract each individual request.

*"It has been an absolute pleasure having you work with us because of your technical skills, your interpersonal style and your proactive suggestions."*
