At Three Link Solutions, we simplify and optimize Workday for customers at every stage with smarter solutions, practical AI, and responsive support.

Our technology-enabled approach – driven by best practices and deep expertise – accelerates Workday activations, enables confident user adoption, and delivers results.

Activate, Scale & Optimize

Workday GO Activations

Faster, smarter activation for small to medium businesses with data transformation, configuration and go-live led by Three Link and AI testing to reduce customer effort.

Packaged Solutions

Ready-to-use, Workday-native dashboards, analytics, workflows and integrations pre-built with best practices and customer insight.

Application Management Services

Tailored Workday post-go-live support from senior consultants, with no rigid contracts, wasted spend or ticket queues.

Flexible Talent Solutions

Fractional or full-time Workday consultants with an average 7+ years of experience across HCM, payroll, financials and more.

Advisory Services

Strategic review and alignment to make adoption, change management and long-term system ownership more effective.
