

Flexible (De)Palletizing

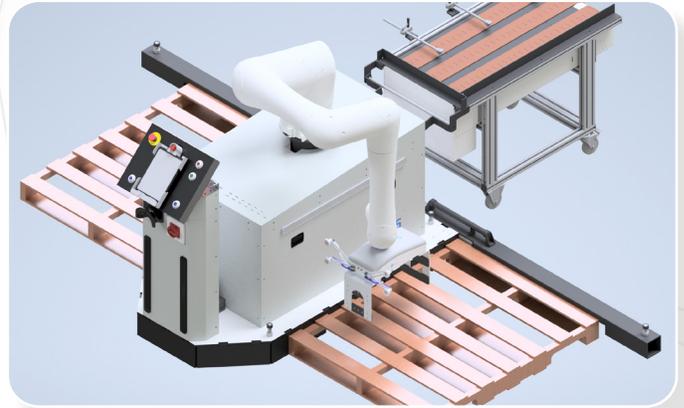

Palletize in just one day.

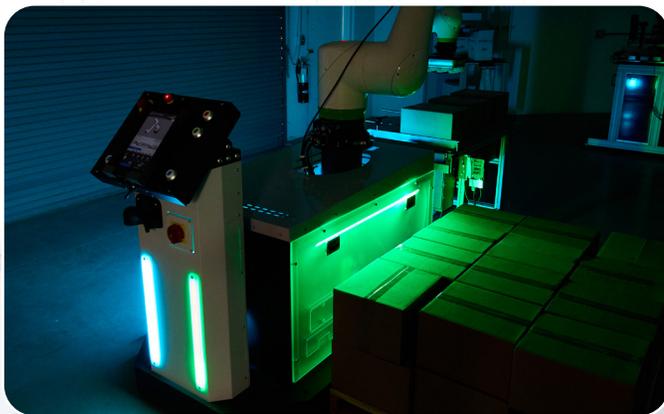

Collaborative Palletizing System

Model: CAPS-30F

- ✓ Start palletizing on day one
- ✓ Suitable for all pallet types
- ✓ Up to 30Kg payload
- ✓ Up to 8 cases/min (single pick)
- ✓ Easy to use tablet operation

3D Rendering

High visibility LED annunciation

Easy to use operator panel

End-Effector with built-in vacuum

Rugged 0.5" steel base

Options

End of Arm Tools

- ✓ Vacuum, foam or suction cup
- ✓ Clamping grippers
- ✓ Single and Multi-zone

Case Coding and Label

- ✓ Print on demand
- ✓ Variable Data
- ✓ Label or Direct print to box

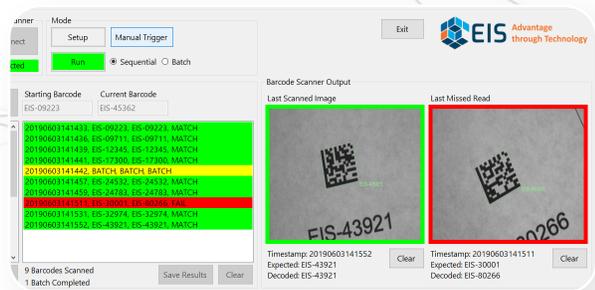

Positioning Conveyor

- ✓ Repeatable box position
- ✓ Available in 1m and 2m length
- ✓ Auto Start/Stop
- ✓ Variable speed control

Traceability and Data

- ✓ Microsoft Windows® platform
- ✓ Ideal for serialized environments
- ✓ Read any 1D/2D Code and OCR

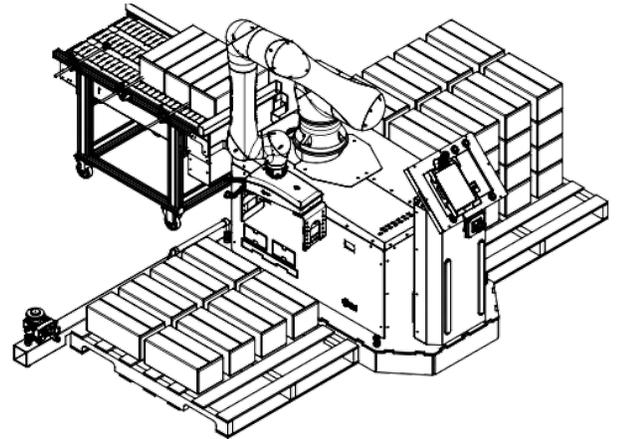

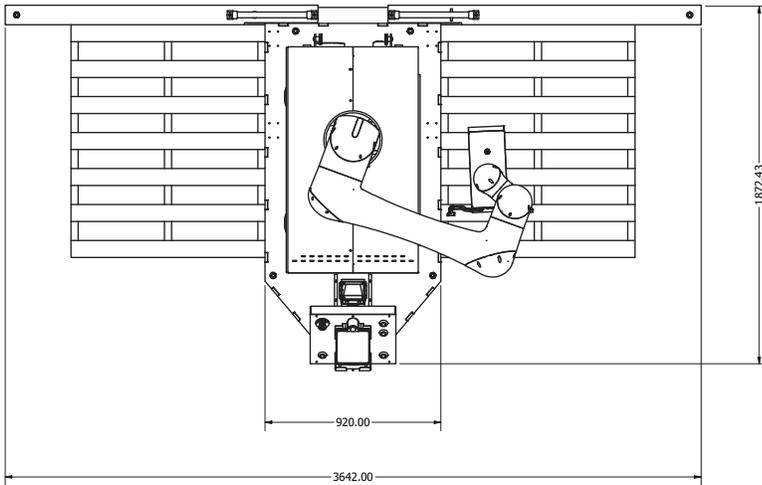

Safety System

- ✓ 3 Laser scanners per system
- ✓ Covers all sides
- ✓ Dual zone setup (warning/stop)

Space saving design.

Specifications

Model: CAPS-30F Collaborative and Advanced Palletizing System	
Throughput	up to 8 cases per minute (single pick)
Stack height	up to ~2000mm (78.75")
Power requirement	120VAC, 15A
Compressed Air	Depends on End-of-Arm tool
Payload	up to 30Kg (66lbs)
Overall Dimensions	L3650mm x W2000mm (143"L x 79"W)
Repeatability	0.05mm
Reach	1756mm at 30Kg, 1889mm at 25Kg
