

Work better with a **Buddy**.

The Buddy System is a light-automation collaborative robot solution for simple, repeatable tasks. Our user-friendly custom interface allows fast programming without the need for robotics experience.

Who Should Use The Buddy System?

Everyone. We learned that in kindergarten!

But really,

Manufacturers who want to improve processes with a simple, easy-to-use robot to handle repeatable tasks.

Industries Served:

- Automotive
- Aerospace/Defense
- Packaging
- Parts Manufacturers
- Food/Beverage
- Medical Device
