Join Penn State AI researchers and K-12 experts for a dynamic learning and listening session on the future of AI in education, exclusively for K12 educators and administrators. The tour will consist of a combination of in-person and virtual day-long events. The sessions will provide you with deeper insights into the A to Z of AI, from AI usage to AI policy, and more. Your voice will contribute to shaping the future of learning across the Commonwealth through:

- **Knowledge Sharing:** Offering foundational information on generative AI as it applies to K12 settings.
- **Workforce Development:** Emphasizing AI's role in workforce preparation
- **Policy Implications:** Discussing K-12 policy considerations for AI integration
- **Professional Development:** Examining AI's impact on educator training
- **Ethics and Sustainability:** Addressing ethical and sustainability issues of AI in education

This is more than professional development. It's an opportunity to influence the future of learning in Pennsylvania. As part of our commitment to advancing AI education across Pennsylvania, we will be collecting survey, observation, and interview data from all participants during the AI Roadshow. This information will be used to inform our reporting to the Pennsylvania Department of Education and to strengthen future programming for K-12 educators statewide. **By attending this event, you are agreeing to participate in these data collection activities as a condition of your participation.**

This publication is available in alternative media on request. The University is committed to equal access to programs, facilities, admission and employment for all persons. It is the policy of the University to maintain an environment free of harassment and free of discrimination against any person because of age, race, color, ancestry, national origin, religion, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, sexual orientation, marital or family status, pregnancy, pregnancy-related conditions, physical or mental disability, gender, perceived gender, gender identity, genetic information or political ideas. Discriminatory conduct and harassment, as well as sexual misconduct and relationship violence, violates the dignity of individuals, impedes the realization of the University's educational mission, and will not be tolerated. Direct all inquiries regarding Penn State's non-discrimination policy to the Office of Equal Opportunity and Access, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901, Email: oeoa@psu.edu, Tel (814) 863-0471. Persons with disabilities who anticipate needing accommodations or who have questions about physical access may contact Jeff Remington (jeff_remington@psu.edu) in advance of the program. Our events and programs are open to all students regardless of sex, gender, sexual orientation, race, or any other protected class. Penn State is committed to building a community of belonging for all.
